

FSCO Monthly Surveillance & Implementation Report

Establishment: Tata’s Chicks

Lead Auditor/FSCO: Jake-Edwards L. Yboa, FSCO

Audit Date: April 16, 2026

1. Executive Summary

Objective: This report provides a technical evaluation of the facility’s current food safety status following the initial surveillance audit and the formal onboarding of the modular Food Safety Management System (FSMS).

Current Compliance Status: The establishment achieved an official audit score of **78.8%**, receiving a rating of **"Okay."** This represents a significant improvement from the 44.2% baseline recorded previously. The transition to a modular system (11 modules verified as "Just Implemented") has provided the staff with the necessary operational framework.

Critical Observations: Despite the improved score, the establishment remains at a high risk for a biological outbreak (e.g., *Salmonella*) due to the **total absence** of essential physical resources. Current operations are attempting to follow professional SOPs without the basic tools required for verification and sanitation.

Key Conclusions & Verdict:

- **Onboarding Success:** Management has successfully initiated the 8 PRPs and 10 SOPs.
- **Immediate Risks:** Four (4) Critical (L1) deviations related to missing sanitizer and storage hazards must be resolved within 24 hours.
- **Resource Gap:** Full compliance cannot be maintained until the "Mandatory Compliance Toolkit" (listed in Section 3) is procured and installed.

2. Audit Scoring & Finding Summary

2.1 Quantitative Audit Result

The score is derived from a 1,000-point base evaluating 60+ checkpoints across 5 Operational Modules.

Metric	Findings	Rating
L1: Critical Deviations	4	Immediate Intervention
L2: Major Deviations	16	Resolve within 7 Days
L3: Minor Deviations	1	Housekeeping Slip

Final Compliance Score	78.8%	Rating: Okay (75 - 84.9%)
-------------------------------	-------	----------------------------------

2.2 Immediate Resolution & Corrective Action Plan

Corrective actions focus on establishing controls where resources are currently missing.

Ref ID	Deviation Description	Corrective Action (System Fix)	Due Date
5.2	No Sanitizer Chemical (L1)	Procure concentrated Food-Grade Sanitizer (Bleach or Quat).	Immediately
5.1	No Sanitizer Bucket (L1)	Purchase 4 dedicated Red Buckets labeled by station.	Immediately
4.4	Improper Storage (L1)	Cling wrap opened dry goods such as Sugar, flour etc, Do not forget to put a label on the items based on the opened date.	Immediately
3.8	No Station Bucket (L1)	Ensure a permanent sanitizer station is fixed at the Breeding Zone .	Immediately
2.8	No Hanging Temp (L2)	Install dial unit thermometers in Chiller #1, #2, and Freezer.	7 Days
5.7	Backdoor Gap (L2)	Install a heavy-duty metal door sweep to seal the frame. Or, seal te gap with a fine mesh.	7 Days

5.14	No Drain Mesh (L2)	Purchase stainless steel mesh covers for all floor drains.	7 Days
MISC	No IR Thermometer (L2)	Procure one (1) Industrial IR Thermometer for receiving.	7 Days
1.5	Insufficient Soap (L2)	Install Soap & Towel Dispensers at all handwash sinks.	7 Days
4.3	Labeling Errors (L2)	Create a Labeling Kit (Tape/Pens) at the prep station.	7 Days
1.6	PPE Violation (L3)	Procure bulk hairnets and spit-guards for the entire team.	14 Days

3. Mandatory Compliance Toolkit: Required Equipment

The establishment is currently operating with a **zero-inventory** of safety equipment. The following items must be provided to satisfy the requirements of the Food Safety Act of 2013 (RA 10611) and ensure the ISO 22000 system can function.

Category	Item Description	Quantity	Purpose
Sanitation	Dedicated Sanitizer Buckets (Red)	4 Units	Station-specific sanitation (Breeding, Pasta, etc.).
	Concentrated Sanitizer (Bleach/Quat)	2 Gals	Pathogen destruction on all food-contact surfaces.

	Chemical Test Strips (Chlorine/Quat)	2 Tubes	Verification of sanitizer strength (50-100ppm).
Thermal	Hanging Unit Thermometers	3 Units	Permanent monitoring of internal unit air.
	Digital Probe Thermometer	2 Units	"Kill Step" verification for Fried Chicken batches.
	Infrared (IR) Thermometer	1 Unit	Rapid temperature scanning for Receiving inspections.
Exclusion	Industrial Door Sweep (Metal)		Sealing the backdoor gap against rodents and roaches.
	Stainless Floor Drain Mesh		Preventing pest entry through the drainage system.
Behavioral	Soap & Paper Towel Dispensers	1 Set	Ensuring consistent hygiene at the handwash sink.
	Staff PPE Kit (Hairnets/Spit-guards)	1 Box	Preventing physical and droplet contamination.
	Labeling Kit (Tape, Pen, Charts)	1 Kit	Shelf-life tracking and FIFO compliance.
